FOR IMMEDIATE RELEASE:

Happy New Year from TMG!!

Hampton Roads, VA –January 1, 2011

From: Joe Barto, Founder and President and Jim Gill , President TMG Government

TMG Wins in 2011!! I am proud to announce that our team has continued its journey to consistent near perfect performance by adding another year of profitability, growth, and learning. On July 1, 2011 we entered our 10th year of operations and we know that our success is completely wedded in the value we provide our partners.

In 2011...

- On our 9th year Anniversary we formed and began operations of TMG Government under the leadership of an accomplished senior executive leader, Jim Gill (link to Bio) to leverage the past performance and corporate qualifications of TMG into the Federal Government market. Their 1st 12 month contract in support of the TRADOC Capabilities Manager for the Total Army Distance Learning Program launched them to profitability in their 1st year of business. www.tmggovernment.com

- TMG continued its support to Ball Metal, BAE Systems Ship Repair (Norfolk and San Diego), Earl Industries, Akima, Measurement Specialities, and Newport News Shipbuilding.

- In 2011 TMG began new partnerships with the U.S. Army Rapid Equipping Force (REF), RockTenn Paper, MHI Ship Repair and Services, Saba Software, RBC Bank, BAE Systems Ship Repair South East Shipyard, Yorktown Social Services, and The Carlyle Group.

- We are very excited about expanding our Electronic Performance Support Tools capability to include Android Apps. To support the extremely aggressive time lines of the Rapid Equipping Force to support our troops around the world with new equipment training packages, we are building and deploying Apps in less than 30 days. We took that capability and now provide all our electronic support modules in paper, CD-ROM, Web Based, and now Android Based Applications.

- TMG has welcomed 3 new classes of Lean Leaders through our World Class Workshops now being provided in three formats-- 1 day Building a Dream Team, 1.5 days, Heartbeat Leader, and 2 days for Lean Six Sigma Champions. Since 2004, we have facilitated 32 Workshops.

- In June 2011 at the ASTD Annual Conference we accepted two Excellence in Practice Citations with our partners North Florida Shipyards and Lifetouch National School Studios. We also submitted our work with Ball Metal Williamsburg around Plant Safety for our 2011 Nomination.

- Veterans Pipeline. On Veterans Day 2011, we launched Veterans Pipelines to work at solving one of the greatest challenges in America today. Putting Veterans to work to rebuild our economy. The Veterans Pipeline Program is a customizable Talent Acquisition and Retention System that will close the gap between the strategic hiring needs of industry and the increasing unemployment rate for America's Veterans. We are piloting the program with RockTenn in West Point, VA and have right minded manufacturing leaders around the country queuing for the assessments now.

We look forward to seeing you all succeed in your personal and professional journeys in 2012 and can not wait to provide continued support and leadership to our current and future Partners.

We win only if you win through your partnership with TMG and we are as committed as ever to that goal.

Play Like a Champion!

Joe Barto
