Lean champions workshop

June 13-14, 2018 - Hampton, VA

Description

In this two-day workshop, you will learn about continuous improvement and operational excellence principles and the roles and responsibilities of lean champions. The workshop will focus on high performance teams, lean, and six sigma for senior and middle managers who are held responsible for the CI/OPEX journey. The program will cover the fundamentals of lean, theory of constraints, six sigma, and how those tools will improve team performance.

Host company: **Newport News Shipbuilding**

Newport News Shipbuilding, a division of Huntington Ingalls Industries, is the sole designer, builder and refueler of U.S. Navy aircraft carriers and one of two providers of U.S. Navy submarines. With more than 20,000 employees, Newport News Shipbuilding is the largest industrial employer in Virginia and the largest shipbuilding company in the U.S. It builds some of the most advanced ships in the world using its expertise in nuclear propulsion, naval design and manufacturing. Newport News Shipbuilding is currently building the new Ford-class aircraft carriers and Virginia-class fast-attack submarines, and performing Refueling and Complex Overhaul (RCOH) on Nimitz-class aircraft carriers. It provides fleet services for its ships worldwide and, using its nuclear and manufacturing expertise, is expanding into Department of Energy and alternative energy ventures.
